SUMMARY

Computer Science student with hands-on experience building scalable full-stack applications using Java, Python, and JavaScript. Proficient in RESTful API design, OOP, and backend development with practical exposure to system integration, CI/CD pipelines, and cloud deployment. Quick learner eager to contribute.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Frontend: React, Next.js, HTML, CSS

Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL, Firebase

Cloud & DevOps: Google Cloud, AWS (S3, EC2), Docker, Jenkins, Git, GitHub, Linux, CI/CD

PROJECTS

Crop Price Predictor

croppriceprediction.app

Full-Stack ML Web Application

React, Python, Node.js, MongoDB, Docker, Jenkins

- Integrated a Random Forest ML model into a MERN stack app via REST APIs with Google OAuth and external data source connectivity
- Built a Jenkins and Docker CI/CD pipeline, debugged deployment failures and reduced manual intervention

PChats Privacy-First Real-Time Chat

pchats.me

Full-Stack Web Application

React, Node.js, Firebase, AES-GCM, Netlify

- Built client-side AES-GCM encryption with auto-deletion on read ensuring zero plaintext is stored server-side
- Deployed with SSL and enforced CSP headers, troubleshooting security misconfigurations end-to-end

AutoDashboard

autodashboardcsv.app

Data Visualization Web Application

Python, React, Pandas, Matplotlib

- Auto-generates charts, statistics, and insights from any CSV with data validation and type inference
- Designed outputs to present findings clearly to non-technical users with no coding knowledge required

Vasus Digital Sales System

Full-Stack Business Web Application

React, Node.js, MongoDB, Firebase, Docker

- Worked with a real business to understand requirements and translated them into a cloud-based sales platform
- Owned authentication, real-time data operations, and containerized deployment independently end-to-end

EDUCATION

NIIT University

Neemrana, Rajasthan

B.Tech, Computer Science and Engineering

2023 – 2027

Specialization in Big Data Engineering

CERTIFICATIONS

- **Google Cloud Computing Foundations** (4-course series) incl. Networking, Security, ML and AI

[Google Skills](#)

- **Build a Secure Google Cloud Network** [Google Skills](#)

- **Software Engineering Job Simulation** [JPMorgan Chase \(Forage\)](#)

- **Python Fundamentals** [Udemy](#)

POSITIONS OF RESPONSIBILITY

Design Core, ingeNUity 2026

NIIT University

Annual Cultural Fest, Creative and Branding

2025 – 2026

- Led visual design for an 800+ attendee fest, coordinating with multiple teams to deliver all creative assets from scratch
- Maintained brand identity across 15+ materials under deadlines, demonstrating cross-functional ownership
