PROJECTS

LazySkip

[Chrome Web Store](#)

Chrome Extension | JavaScript, Chrome Extension APIs

- Developed a Chrome extension that auto-skips intros and recaps, auto-plays the next episode, and bypasses ads
- Shipped to the Chrome Web Store, growing to 39 global installs and 11 weekly active users through organic user adoption

Crop Price Predictor

[croppriceprediction.app](#)

Full-Stack ML Application | Python, Scikit-learn, Node.js, MongoDB, Docker, Jenkins

- Engineered an end-to-end ML pipeline covering data ingestion, preprocessing, training, evaluation, and REST API exposure, achieving 89.97% prediction accuracy on held-out test data
- Established a Jenkins CI/CD pipeline and containerized the full stack with Docker, enabling automated and reproducible deployments

AutoDashboard

[autodashboardcsv.app](#)

Full-Stack Web Application | Python, Pandas, NumPy, Matplotlib, React

- Built a zero-configuration data pipeline that infers schema, validates types, and handles malformed inputs, eliminating manual preprocessing for standard CSV workflows
- Reduced processing overhead by selecting vectorized transformation patterns and efficient data structures that scale with input size

CERTIFICATIONS

- Google Cloud Computing Foundations incl. Networking, Security and ML/AI ([Google Skills](#))
- Software Engineering Simulation, JPMorgan Chase ([Forage](#))

POSITIONS OF RESPONSIBILITY

Design Head, ingeNUity 2026

NIIT University | Annual Cultural Fest, Design and Branding

- Spearheaded visual design for an 800+ attendee university fest, delivering all posters, banners, and digital assets from scratch under tight deadlines
- Coordinated brand identity across 15+ materials and multiple teams throughout the full campaign
