SUMMARY

Computer Science Engineering student specializing in Big Data with production-deployed full-stack applications and end-to-end ML pipelines. Proficient in Python, JavaScript, Node.js, and cloud platforms with experience across the full development life cycle from system design to CI/CD deployment.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Backend & Databases: Node.js, Express.js, MongoDB, MySQL

Cloud & DevOps: Google Cloud, AWS (S3, EC2), Docker, Jenkins

Concepts: Data Structures & Algorithms, OOP, CI/CD

PROJECTS

Crop Price Predictor

[croppriceprediction.app](#)

Full-Stack ML Application

Python, Scikit-learn, Node.js, MongoDB, Docker, Jenkins

- Engineered an end-to-end ML pipeline covering data ingestion, preprocessing, training, evaluation, and REST API exposure, achieving 89.97% prediction accuracy on held-out test data
- Established a Jenkins CI/CD pipeline and containerized the full stack with Docker, enabling automated and reproducible deployments

AutoDashboard

[autodashboardcsv.app](#)

Full-Stack Web Application

Python, Pandas, NumPy, Matplotlib, React

- Built a zero-configuration data pipeline that infers schema, validates types, and handles malformed inputs, eliminating manual preprocessing for standard CSV workflows
- Reduced processing overhead by selecting vectorized transformation patterns and efficient data structures that scale with input size

PChats: Privacy-First Real-Time Chat

[pchat.me](#)

Full-Stack Web Application

React, Node.js, Firebase, AES-GCM, Netlify

- Designed client-side AES-GCM encryption with auto-deletion so zero plaintext reaches the server, eliminating server-side data exposure at the architecture level
- Implemented SSL, CSP headers, and real-time concurrency handling across simultaneous clients, hardening the system against common web attack vectors

EDUCATION

NIIT University

Neemrana, Rajasthan

B.Tech, Computer Science and Engineering

2023 – 2027

Specialization: Big Data Engineering

CGPA: 7.15

CERTIFICATIONS

- **Google Cloud Computing Foundations** incl. Networking, Security and ML/AI [Google Skills](#)
- **Software Engineering Simulation** [JPMorgan Chase \(Forage\)](#)
- **Python Fundamentals** [Udemy](#)
- **Learn Java Programming** [Udemy](#)

POSITIONS OF RESPONSIBILITY

Design Head, ingeNUity 2026

NIIT University

Annual Cultural Fest, Design and Branding

2025 – 2026

- Spearheaded visual design for an 800+ attendee university fest, delivering all posters, banners, and digital assets from scratch under tight deadlines
- Coordinated brand identity across 15+ materials and multiple teams throughout the full campaign
